SUMMARY OF KEY CHANGES

REVENUES

- > As of the end of June, we still only had 69% of the budgeted membership dues for 2024. We intend to follow up with member cities in July to collect the remaining outstanding dues.
- > The receipt of 2 million dollars from Emergency Communications District had a significant impact on Gulf Coast Regional 911 revenue for this month.
- > Interest income for the first six months of the fiscal year is at 152% of budget.

*** Please note that the budget adjustments made during the mid-year revision will not go into effect until the July 2024 monthly financial report. ***

EXPENDITURES

- > Personnel expenditures continue to stay within budget as we fill vacant positions. Currently we have spent 44% of 50% of the year that has elapsed so far.
- > Pass-through expenses, particularly in the C&E and Aging programs are currently below projection levels. Some pass-through expenses for the month of June are still in process of being reported.
- > Only 23% of the consultant expense budget has been spent so far. Adjustments were made to this account during the mid-year budget revision.

*** Please note: the financial activity outlined above and in the report falls within the past trends observed in H-GAC's operations and is not out of the ordinary. ***

H-GAC ENTERPRISE FUND BALANCE TRANSFER

Background

The Government Finance Officers Association recommends that local governments adopt a target amount of working capital to maintain in each of their enterprise funds. Ideally, targets would be formally described in a financial policy and/or financial plan. Working Capital is described as current assets minus current liabilities.

Current Situation

At the end of FY2023, per the Annual Comprehensive Financial Report the enterprise fund had a fund balance/net position of \$19,644,630, and for the last 10 years, the average result of operations for the fund has been a surplus of \$1.1 million. To keep a cushion in that fund for any unforeseen circumstances, the Chief Financial Officer recommends keeping 3-years' worth of this average equal to \$3,337,466 and transfer the remaining amount of \$16,307,164 to the general fund for the support of the agency's operations.

CLIMATE POLLUTION REDUCTION GRANT PHASE II – MEMORANDUM OF AGREEMENT

Background

The 2022 Inflation Reduction Act allocated \$5 billion to support states and governmental entities in developing and implementing greenhouse gas reduction strategies. On March 1, 2023, the Environmental Protection Agency launched the Climate Pollution Reduction Grants Program. The program aims to reduce greenhouse gas emissions, create jobs, deliver cleaner air, and lower energy costs for families.

The Houston-Galveston Region received a \$1 million planning grant for the first, planning-focused phase of this effort. The second phase will distribute a total of \$4.6 billion in competitive implementation grants to support the policies, programs, and projects outlined in the phase one plans.

Current Situation

In collaboration with Fort Bend County, Harris County, City of Houston, Harris County Flood Control District, Port Houston, and the Houston Advanced Research Center, H-GAC submitted a regional coalition application for Phase II in April 2024. If approved, this effort will support a 13-project portfolio aimed at maximizing air pollution reductions from industries, government agencies, and businesses.

To prepare for this potential \$162 million grant award, staff will work with the named project partners to negotiate a Memorandum of Agreement confirming the roles and responsibilities of H-GAC and partner organizations related to this proposed project. This agreement will show that all project partners are committed to fulfilling their respective roles and responsibilities to successfully implement the projects described in the application.
